

Transplant Education Agreement

Utah Blood and Marrow Transplant Program

BMT 11/2016

Knowing the facts about your blood and marrow transplant (BMT) ahead of time raises the chances for success. Our transplant education class will help you and your caregivers prepare.

Before the transplant, the BMT team expects patients and primary caregivers to go to the class. The class covers these topics:

- Timelines
- Your central line
- Your hospital stay
- Chemotherapy and its side effects
- Leaving the hospital and clinic visits
- Returning home
- Long-term follow-up
- Information for caregivers
- Nutrition during and after the transplant
- The pharmacy and your medicines

By signing below, we confirm these things:

- We have attended the transplant education class.
- We understand the material covered in the class.
